Examiners Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joe Makuch on 3/27/2007.

The application has been amended as follows:

In the Claims

Claim 17, line 2, "exponentially" has been changed to --sub-exponentially--.

Claim 17, line 4, "exponentially" has been changed to --sub-exponentially--.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 12-36 are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a "sub-exponential" current generator which may be deliberately softened either by choice of transistor types or geometry or by choice of bias currents or by the inclusion of degeneration resistors R_s , so as to result in an output that deviated from an ideal exponential function, as recited on page 19, line 12-18, in combination with the rest of the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
